APPLICATION

Calpoint, LLC (“Calpoint” or the “Applicant”), by its attorneys, hereby requests authority pursuant to Section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and in accordance with Section 63.18 of the Commission’s Rules, 47 C.F.R. § 63.18, to provide global facilities-based international services between the United States and international points.

Calpoint is a U.S. company that intends to provide international telecommunications services. Calpoint has no foreign affiliations. Calpoint, through its affiliates, provides data transmission through dedicated and private line fiber optic telecommunications transmission capacity to other telecommunications carriers in the United States. In connection with the provision of the services offered by its affiliates, Calpoint seeks authority to provide global facilities-based services to all foreign points.

By granting this application, the Commission will serve the public interest, convenience and necessity by promoting competition in the international services market. Competition will benefit U.S. consumers by increasing service options and lowering prices. Thus, the public interest will be served by the grant of Section 214 authority to Calpoint.
